Dear Dr. Stephen Juhasz:

Thank you for your kind letter of November 20th.

I will be very happy to send you the streptomycin-dependent strain and at the same time a pair of highly interfertile cultures so that you can have them on hand for later use.

We had obtained a substantial gift of DAP from Pfizer's but this was evidently an experimental lot and they are not producing anymore. I am sending a small quantity from this sample; you can also purchase DAP from the Mann Research Lab, 136 Liberty Street, New York 6, New York.

Best wishes,

Joshua Lederberg
